in the area north of Exchange Avenue. Other major improvements include new loading and unloading docks off Stockyards Boulevard 128th Street, an overhead walkway extending from the loading area to the auction barn, and a new sanitary and storm drainage system which meets the clean water

standards of the City of Fort Worth and the Texas Water Quality Board. "These improvements have been made in the interest of making the Stockyards a more efficient, convenient and profitable place to do business," said Klingenberg. The new loading area has 16 chutes to handle hogs, cattle and sheep and can accommodate trailers to double deck trucks. The receiving docks are open 24 hours a day year-round and there is also a new parking lot to accommodate livestock trucks.

ADD Pounds of PROFIT

Many Cattlemen

SELL 2500 EXTRA LBS.

or more on every 50 calves for as little as 25¢ per pound of extra gain!

Calves really go for that Evergreen flavor!

And, they almost never seem to scour.

Calves take right to it and "take off" in a hurry. They really go for that Evergreen flavor, and leaders report: "No scouring!" Many leaders also report getting 50 lbs. extra gain for as little as \$12.50 head cost. Evergreen Special Creep balances unequal milk supplies, making calves more uniform. It helps the calves lose weight loss on the mother's milk. Put your penicillin to it and see: it's more profitable to add extra pounds to calves you already have, than to add extra cows to your herd. Add those pounds of profit the low cost way, with Evergreen Special Creep Feed. "It costs less, because it does more!"

Krueger Bills Aim To Improve Beef Import Conditions

(CONT. FROM PAGE 1)

Krueger's background to ranching and those who have watched his legislative efforts to behalf of Texas cattlemen know better.

One Krueger proposal, H.R. 8884, calls for more specific labeling of beef for consumers and requires inspection standards for imported meat to approximate more closely the standards for domestic beef. The other bill sets a ceiling on the import quota of beef.

Currently, imported meat which undergoes further processing or packaging in the U.S. is no longer required to be labeled as imported, leaving consumers uncertain as to whether they are purchasing domestic or imported beef.

redevelop the North Side," said Klingenberg.

Fort Worth and the U.S. Government have spent more than \$4 million to remodel the North Side Coliseum, landscape Marine Creek, rebuild Exchange Avenue and make other improvements.

"Cowboy Power" Moves Cattle Feeders To New Convention Date

Stuph & Thangs

(CONT. FROM PAGE 1)

Jim recently a group of Nader's Raiders issued a 90-page manual telling the public how to make newspapers more responsive to their wishes. The Naderites suggest mob action such as mass cancellation of subscriptions or jumping on advertisers to make 'em quit using the publication. Here their ignorance really shows. If publications don't satisfy readers and advertisers, people don't need any coaches of this kind. They know what to do.

In the Old Days when people got on the pack at their local newspaper they took even more direct action like riding the editor out of town on a rail in a kimono of tar & feathers, some tried to horsewhip 'em, some invited 'em under the Duelling Oaks, and even today newspapers are bombed and burned. Newspapers and magazines disappear faster a snowball on a depot stove if what they print don't suit most of their readers and we can't think of any publication that don't try to this.

Brangus Breeders Assn., Lauren Mayhew, secretary, P. O. Box 570, Sealy, Texas 77474, phone 713/585-3584.

Paul Sharpe is president and Wanda Britton secretary of Pines & Plains Brangus Breeders Assn.

best of their ability to satisfy the customer & readers. Seldom a week goes by that some new publication isn't launched and the same goes for them that disappear quickly.

Folks like the Naderites somehow don't savvy that publications, or any business, that don't suit their patrons succumb to the first law of Economic Nature, they change or they die and fast. Publications like to remind folks about how long they have been in business and one reason for this is they like to brag about how long they have been of service to their part of the populace. Publications that can survive public wrath are found only in countries where Dictators operate the news media and force feed their public what they want 'em to read, see or hear. It don't happen in America.

The same thing goes for all lines of business that the Bureaucratic Regulators or Reformers tackle. At this moment the Govmint is tryin' to figger out how to slow up the Regulators so they don't simply regulate business out of business and some progress is being made. It has boiled down to the point of just how much meddlin' by people who don't know th' first elements of business operations can dish out before they kill the gooses that lays them golden eggs that support the Bureaucrats and Pressure Groups.

Some folks figger Nader's effort to straighten out the Newspapers stems from his recent sag in popularity. Once Nader was th' White Knight and th' news media gave him all th' best of it, includin' th' benefit of every doubt. Recently he has found th' news people checkin' him out and they are cuttin' th' ground from under th' Nader Myth as they discover half-baked and inaccurate stuff in his program. Remember th' House twice passed his Consumer Agency bill by whopping majorities, but sank it without a trace th' last time? As th' Oil Boys would say—Nader has been hittin' a string of dusters lately, and it is understandable the news media ain't been run to suit him when th' Media reports his stumbles & fumbles.

Then Economic Impact statements that have been so popular are comin' home to roost with th' Reformers. The reason bein' their Economic Ignorance is catchin' up with 'em. Ever thine, The Editor.

Farm, Ranch Reports Needed For Better Statistical Figures

(CONT. FROM PAGE 1)
Livestock Reporting Service or will be personally interviewed by the Service's field staff. This is part of the continuous effort of keeping track of Texas' big-guest business — agriculture.

The information gathered through the questionnaire and interviews provides the basis for determining the acreage devoted to the various crops and midyear livestock numbers for the state of Texas and for each county. With the depressed prices of many agricultural commodities, it is more important than ever that the statistics be as accurate as possible to aid producers in making the best production and marketing decisions. They are also essential in enacting wise legislative affecting agriculture and are used in determining the national program acreage and payment levels to producers under the various commodity programs. The primary beneficiaries of accurate statistics are farmers and ranchers themselves.

Prompt and accurate completion of the survey forms provides for more reliable estimates of Texas' largest industry — agriculture. It also helps to reduce survey costs. All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate. This is a cooperative effort of the USDA's Economics, Statistics, and Cooperatives Service and the Texas Department of Agriculture.

The Okinoma Santa Gertrudis Association has set Saturday, June 24 as the date for its "Picture Perfect" Sale of top quality cattle. The sale will be held at the Green Country Cow Palace in Tulsa, Oklahoma, beginning at 1 p.m. Gerald Bowie, West Point, Georgia, will be the auctioneer.

Because of the increasing popularity of Santa Gertrudis cattle in Oklahoma, Kansas, Missouri, Arkansas and other states nearby in the Midwest and Upper South, and the high quality standards demanded by the screening committee, the Oklahoma association sale has dropped into one of the prestige sales in the cattle industry. The screening committee has this year, ad only 100 exceptional animals from the large pre-entry list. Included are some outstanding proven herd sires and herd sire prospects, and a top set of females including three-in-one packages, pairs, bred

Headquarters for the sale is the Holliday Inn, East, 1010 N. Gemett Road, Tulsa. A pre-sale reception, hosted by the Oklahoma association, will be held at the headquarters hotel on Friday evening, June 28, from 7 p.m. - 8 p.m.

The sale is sponsored by the Oklahoma Santa Gertrudis Association. Officers of the association are Jerry Mike, Tulsa, president; Keith Cosgrove, Coalgate, vice president, and Boh Wasson, Poteau, secretary-treasurer.

For more information, reservations, or sale catalogs, contact Jerry Miza, Grandeza Ranches, 3902 E. 51st Street, Tulsa, Oklahoma, 74135, telephone, (318) 747-3084.

Austin — State Rep. Joe A. Hubenak (D) of Rosenberg, candidate for Texas Commissioner of Agriculture, believes that grape and Christmas tree production in Texas should definitely be co-

"Grape and Christmas tree production are new commodities for Texas with great potential," Hubenak stated. "Texas currently buys \$22 million worth of out-of-state Christmas trees each year. I believe that with proper leadership and direction East Texas producers could supply half of these trees."

The legislator also stated that the same leadership is needed for the grape industry in Texas. "Grape production could provide a big boost to the areas of West Texas and the Mid-Plains specifically the Lubbock-Whiteface area," Hubenak said.

"Currently, only 75 acres of grapes are in actual production stages. The estimated potential is for 5,000 acres."

Huberek emphasized both industries provide great profit potential for the producer and a bargain for consumers. Texas consumers would benefit from interstate production through reduced prices resulting from the elimination of costs related to out-of-state production and transportation.

Railroad Commissioner John Pomeroy has received widespread support in newspaper and throughout Texas. The San Antonio Express recommended Pomeroy.

Livestock Classified Ad

A high-contrast, black and white photograph of a person's face, heavily shadowed and framed by a thick black border. The image is grainy and has a stark, almost abstract quality. The person's features are mostly obscured by deep shadows, with only the bridge of the nose, the upper lip, and the eyes (which appear as bright, staring points) visible. The background is a mottled, dark grey. The entire image is enclosed within a thick, solid black rectangular frame.

SMITH CATTLEGUARD COMPANY

BRANGUS The Ideal Mother.

There's just one reason you need Brangus cows working for you — PROFIT! Brangus is America's number one brood cow, because she consistently produces calves that are in great demand by stockers, feeders, packers, and consumers. And this means consistent profit for you! Brangus females mature early, calving as 2-year-olds with no problems, and they give a 20% milk production. They are excellent milk producers, and their calves are heavier, and do better than calves of other breeds. With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems. Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS! For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713) 885-3364.

Dear Fellow Cattleman:

We extend to you an invitation to the complete dispersion of my registered herd of Herefords.

I purchased the J. W. Waide herd of 76 brood cows in 1944. He started the herd in 1919 and all the cows I bought traced back to one Fairfax cow. Mr. Waide kept his heaviest heifers with the most beef conformation. He did not creep feed — so in his own way was keeping the daughters of the best milking cows. He was selecting for economic factors that have proven to be genetically transmitted from one generation to another.

I sent many bulls and heifers to the Texas A&M Research Station at Bal-morhea, Texas. We had the highest gaining sire group 13 of 18 years of these tests with over 1000 bulls from 30 breeders competing.

The herd has been built on a solid foundation. Performance testing has been a part of our breeding program for over 30 years. Our cattle have performed well in many registered and commercial herds in the U.S. and other parts of the world. They have also competed successfully in top shows in recent years.

All of our cattle have been raised under West Texas range conditions which often times have been adverse. They are bred to perform. They have performed for us and our many customers. They will perform for you.

We hope you will attend our dispersion in San Angelo on May 15, at 9:00 a.m.

Texas Ends Screwworm Free Weeks With Hudspeth County Case

Mission - After a record 25 consecutive weeks without any known screwworms in Texas, specialists have identified a sample from a horse in Hudspeth County as screwworms. Dr. M. E. (Cotton) Meadows, Jr., director of the Texas and Plant Health Inspection Service, the sample was collected April 21 by Wiley C. Heath, DVM, of El Paso, Tex. The worms were "in a cut behind the heel" of a horse.

Dr. Heath treated the wound and selected the larvae near headquarters of Diamond A Cattle Co.; about 48 miles east of El Paso on the Carlsbad Highway. The property is also known as the "Old Kerr Ranch."

To Be Held At
Mansfield Livestock Auction
MANSFIELD, LOUISIANA
MONDAY, MAY 29, 1978 - 1 P.M.
An Estimate of Breeds and Weights:

Breed	400-500 lbs.		500-650 lbs.		Over 650 lbs.		Total
	S	H	S	H	S	H	
Hereford	70	20	250	25	65	15	405
Angus	20	20	75	10	20	50	115
Holstein			10				10
Brangus-Bradford	15	50	10		65		95
Other Crosses	30	30	100	40	75	25	205

Most of the cattle were weaned last fall and have grazed ryegrass/wheat pasture during the winter. There will also be some calves and lighter cattle suitable for summer grazing.

The majority of these cattle were vaccinated for blackleg and leptos, pour for grub and wormed before going on pasture. These cattle are the type of quality that make economical gains and grade at acceptable weights.

Attention Farmers & Ranchers

Now is the time to rid your pastures of weeds and brush with the low-cost

BLASTER-MIST SPRAYER

controls all kinds of brush, weeds, vine tangles, Mesquite, scrub oak, all broad-leaf weeds, grass bums, also controls army worms, green bugs and other insects on farm lands.

BLASTER-MIST SPRAYER

Sprayed pasture land will run twice the number of cattle than untreated land. This is especially true in drought areas. When pastured land has plenty of rainfall there is still a noticeable difference in sprayed pastures. Calves and yearlings on sprayed pastures will gain an additional 30 to 35 pounds.

Fits any modern tractor. Also available on skid mounts with engine. Covers controlled swath up to 100 feet wide - up to 80 acres per hour. Don't underestimate the value of the blaster.

UNCONDITIONALLY GUARANTEED FOR 12 MONTHS!

Wool & Mohair

National Wool Market Review, April 21 (USDA) — Trading in domestic Wool very active with the most attention focused on the many Wool Pools which have or soon will be offered. Prices firm although Grasses Wool is selling rapidly. New top business is reportedly still slow.

In Texas upward of 500,000 lbs. reported sold including Lambs and

12-month Wool Bulk 64's Range 70-90 cents Grease. One small lot 1.04. All estimated clean, delivered 1.80-1.90. Mohair sold including Adult at 4.28 and Kid 6.40. At the South African Sale Tuesday 500,000 lbs. sold with Adult up 10 percent, Young Goats steady and Kid 2 1/4 percent higher.

I don't see what all the fuss is about, nudist colonies. Nothing goes on.

Kimbell MEDICATED FEEDS ARE MONEY MAKERS

It goes without saying that no program or type of feed can guarantee a profit on a particular set of livestock. However, it is possible to guarantee that with proper management a feeding program will make livestock more valuable — better money makers.

KIMBELL Medicated Feeds Are Designed to Improve Animal Health and Balance Nutrition

This type of program improves the appearance, gives livestock that "good doing" look — this convinces your buyers they are "worth more."

This type of program actually makes your livestock "do better" — control of disease and parasites adds pounds — they are "worth more."

Jack Walling, Gusts Simmental Sale Set May 6 At Corsicana
Corsicana, Texas - Jack Walling and guest consignors' second annual Springtime Simmental Production Sale will be held in the Corsicana Livestock Auction on Highway 81 and Highway 76 here beginning at 1 p.m., Saturday, May 6.
Selling will be approximately 100 lots including bred and open purebreds, seven-eighths bull and heifer calf pairs; bred and open three-quarter females; and bred and open Brahman females.
Featured will be a polled three-year-old Red Brahman bull that is registered with the American Brahman Breeders Assn. The sire has been used in the Jack Walling herd and already had polled and double polled offspring on the ground.
All cattle selling have been selected from the herds of W. H. Barn of Waco, and W. A. Dugas of Corsicana, as well as the Walling herd located at Hubbard.
For more information, contact Jack Walling, 401 Cactus, Hubbard, Texas 76648, phone 817/576-2711; or Joe Mitcham, Auctioneer, Rt. 1, Hubbard, Texas 76648, phone 817/576-2072.
